Software Engineer and IT Support Specialist with 3+ years of experience in high-availability BPO operations and proven ability to bridge the gap between development and IT

Experience

- Sr. IT Support Specialist****Sutherland SGS****May 2024 - present**
- Developed a Networking diagnostic tool (NDT_tool) to automate network log capture during critical P1 incidents, reducing data collecting time from 30 to 5 minutes.
 - Created a browser extension (Tab-Limiter) to restrict resource (RAM, CPU, GPU) consumption on agent machines, which was approved for operational implementation.
 - Serve as the primary IT Point of Contact (POC) for 2 strategic campaigns, managing communication with directors, tracking software deployments, and mitigating security risks.
- Team Manager****Intouch CX****Aug 2022 - May 2024**
- Mentored and trained team members on customer support and new procedures, enhancing overall team skills and performance.
 - Selected based on high performance to represent the Service delivery team in client-facing follow-up meetings.

Personal Projects

- NDT tool (Network Diagnostic Tool) | CMD, Windows Automation**
- IT support Windows automation tool that runs network diagnostics (ping, tracert, nslookup, ETC) and saves results for a quick analysis during P1 incidents. Deployed internally at Sutherland.
 - Reduced logs data taking time form 30 minutes to 5 minutes
- Tab-Limiter Chrome Extension | JavaScript, HTML/CSS**
- Chromium extension that restricts the number of open tabs/windows, designed to optimize performance on resource-limited workstations.
 - Improved hardware and software resources usage on production environments.

Education

- Software Engineering****Compensar University Foundation****Jan 2025 - present**
- 7th semester in software development engineering
- DevOps Certificate Holder****U - Javeriana****Dec 2025 - Feb 2026**
- Mechatronics Technologist****SENA****Jan 2017 - Dec 2019**

Skills

- Software Development**
- JavaScript - TypeScript - Python - React.js - Next.js - Astro.js - Node.js - Tailwind CSS - Express.js
- DevOps & Cloud**
- AWS - Azure - Docker - Git - CI/CD - Linux - WSL - GCP
- Databases:**
- SQL - MongoDB - MySQL Postgres SQL
- IT & Infrastructure**
- Active Directory (AD) - GPO - Cybersecurity (Cisco) - Incident Management - Technical Support
- Soft Skills**
- English (B2) - Power BI - Excel - Leadership - Proactive Problem Solving
